10. Mark Foster, Receiver/Exciter 7
11. Ian Fisher, Receiver/Exciter 8

The Tidbinbilla Unified S-Band team for Apollo 11 – photo taken June 1969.

Taken from above the receiver racks, with the top of the Ranging System rack in the bottom right corner of the picture. The DSS42 antenna structure is just visible through the window at the end of the room.

With thanks to Bruce Window, Stew Burton, Keith Aldworth and Hamish Lindsay for the names.
